- Website: www.birgenai.co.ke

2. Ownership and Management

- Director & Shareholder:
 - Emmanuel Kipleting – Founder & Technical Architect

3. Nature of Business

BirgenAI Hub develops and delivers AI-powered business intelligence and IT services tailored to Kenyan SMEs and corporates. Our solutions enable clients to gain real-time insights, predict trends, automate processes, and optimize decision-making.

4. Core Services

- AI-driven dashboards and reporting solutions
- Predictive analytics and data science consulting
- Custom data integration (ERP, CRM, M-PESA/Daraja)
- Automation of routine business processes
- IT strategy consulting and solution deployment

5. Target Market and Clientele

- Small and medium-sized enterprises seeking data-driven growth
- Mid-tier corporations requiring seamless payment integrations
- Startups embedding AI into products and services

6. Technology and Operations

Our platform is built on a scalable cloud-based microservices architecture, leveraging Python, Node.js, and secure RESTful APIs. Key features include role-based access control, encrypted data storage, and real-time analytics. We adhere to industry-standard security and compliance practices.

7. Revenue Model

- Freemium subscription tiers:
 - Free plan with basic analytics
 - Paid monthly/annual plans unlocking advanced features
- Transaction fees on payment collections (2.5% per transaction)

8. Banking Requirements

Upgrading to a corporate settlement account will enable BirgenAI Hub to:

- Efficiently receive subscription revenues and M-PESA collections
- Automate vendor and payroll disbursements
- Integrate account statements with our reconciliation workflows
