ARREARS DISTRIBUTION	every account on file	WHEN ACCOUNTS WERE OPENED	3 Feb 2021 to 31 Aug 2026
Days past due are as of each lender's last submission — between 7 and 2046 days ago, not today.		One mark per account, height by size. Clusters are the signal — several facilities opened in one month is stacking, which a monthly total would hide.

“Late” is days past due AS OF the date in “Reported”, not as of today — a lender that has not submitted for months will show stale arrears. “Max” is the worst this account has ever been.

READING NOTES

derived from this file

- The oldest account figures were last reported to the bureau 2046 days ago. Arrears counts are as of that date, not today.
- 2 accounts are reported open with a nil balance — settled but not yet re-flagged by the lender. They are excluded from live exposure.
- The bureau reports no enquiries in 12 months, yet 11 accounts were opened in that window. Metropol's enquiry counters are not real-time and should not be read as shopping behaviour.
- No account on this file is flagged as the requesting lender's own, including where the lender has an active loan. Treat `is\_your\_account` as unreliable for reconciliation.

ABOUT THIS DOCUMENT

The credit information in this document was supplied by Metropol Credit Reference Bureau, a credit reference bureau licensed by the Central Bank of Kenya. The Interchange did not create, alter or verify that information. The Interchange is a technology intermediary: it is not a credit reference bureau and it gives no credit opinion. It retrieves the bureau's response, keeps it unchanged (the original response and its SHA-256 fingerprint are held under the reference on this document), and presents it in a form a lending decision can use. Where this document shows totals, orderings, charts or flags, they are marked as the Interchange's reading of the bureau's data and are not the bureau's statement. Questions or disputes about the underlying data must be raised with Metropol Credit Reference Bureau, which holds the record.
